

# Guido Vizoso

Product Engineer & Frontend Team Lead — <https://gvizo.so>

I'm a product engineer with ~10 years of experience. Currently making the world a safer place by preventing money laundering at [Sandbar](#).

2025 — Today

## **Founding Product Engineer at [Sandbar](#)**

Building the next generation of anti-money laundering screening solutions. Stack: Python, FastAPI, Typescript, React, PostgreSQL, Docker, AWS.

2022 — 2025

## **Lead Frontend Engineer at [Antartida](#)**

Led the software factory's frontend team. Stack: TypeScript, React, react-query, Tailwind. Responsible for code reviews, mentoring, defining standards, and contributing to the product roadmap alongside product and design teams.

2021 — 2022

## **Software Engineer at [Kittl](#)**

Built a web-based graphic design tool and social features using Next.js, React, TypeScript, Express, Prisma, and PostgreSQL. Worked across the stack in a small, fast-moving team.

2021

## **Sr. Frontend Developer at [Arzion](#)**

Developed a React + Redux widget library enabling marketers to build dynamic travel and hospitality landing pages with minimal effort.

2020 — 2021

## **Sr. Frontend Developer at [JP Morgan Chase & Co](#)**

Helped build a new internal platform using React and Redux. Defined tooling and libraries, and mentored junior developers, several of whom I continue to advise.

2018 — 2020

## **Sr. Frontend Developer at [Supervielle Bank](#)**

Worked on the public website using Next.js, Express, and PostCSS. Partnered with the innovation team on prototypes and advised UX teams for mobile and home banking products.

2016 — 2018

## **Web/Frontend Developer at [Uasabi Digital Agency](#)**

Started as an intern building newsletters for major retailers, later designing and developing websites and campaigns for large regional clients.
